

Empowering Africa, with expertise and trust.

A leading provider of Microsoft Technologies for Governments and Public Sector organizations in Africa.

We at Techno Brain Ltd. began our technological odyssey at Tanzania in 1997. Our journey has taken us across Africa, and at every juncture, we left no stone unturned in empowering the continent.

Techno Brain is a Microsoft Gold Certified Partner, making us the leading provider for introduction, customization and support of all Microsoft Technologies in Africa. Our portfolio of products and services covers the entire spectrum of the information technology needs of its customers - from planning & design to installation, integration, migration, assistance to system management, telephone support & on-site hardware & software fixes.

In addition to our technological expertise, our pan-African presence encompasses several Industry, Government, Public Sector verticals.

Extensive knowledge of various technology areas enables us to deliver end-to-end solutions that can build, manage and support IT systems for our customers, across the entire value chain — infrastructure, applications and business processes.

But what really makes us a 'go-to' partner to Government Agencies, NGOs and Public Sector organizations in Africa is our comprehensive understanding of local issues. This helps us customize our wide array of solutions and technology to suit the needs of our clients. Our continuing success with our esteemed list of Government and Public Sector clients in Africa are testimony to our pursuit of excellence.
